SUPPLEMENT

TO THE

MONTHLY AND QUARTERLY RETURNS

OF THE

BIRTHS, DEATHS, AND MARRIAGES

REGISTERED IN

SCOTLAND

DURING THE YEAR

1895;

ALSO THE

VACCINATION RETURNS

RELATIVE TO THE CHILDREN BORN DURING

1894.

PUBLISHED BY AUTHORITY OF THE REGISTRAR-GENERAL.

EDINBURGH: PRINTED BY NEILL AND COMPANY

FOR THE REGISTRAR-GENERAL OF BIRTHS, DEATHS, AND MARRIAGES.

1896.

REPORT.

Herewith is submitted the Report containing the usual details regarding the Births, Deaths, and Marriages registered during the year 1895, in the 1056 Registration Districts throughout Scotland. Appended to the General Report is the Report on Vaccination, in which is contained all the available information regarding the administration of the Scottish Vaccination Act, and especially in relation to the vaccination of children born in Scotland during 1894.

TABLE I.—Population estimated to the middle of each year, with the Number of Births, Deaths, and Marriages registered in Scotland during each of the Years 1855 to 1895, and their Proportion to the Population; also the Excess of Births over Deaths, the Number of Illegitimate Births, and their Proportion to the Total Births.

YEAR	Estimated Population	BIRTHS.		DEATHS.	MAR-RIAGES.	Excess of Births over Deaths.	Percentage to Population.			Per cent of Illeg. to Total Births.
		Total.	Illegit.				Births.	Deaths.	Marriages.

population 3·04 births, 1·97 deaths, and 0·68 marriages, proportions which when compared with the corresponding for last year indicate an increase in each case.

The excess of births over deaths is 44,590.

BIRTHS.

Of the births which number 126,454 and give a birth-rate of 3·04 per cent., or 304 in every ten thousand of the population, 64,815 are males, and 61,639 females.

Tables IV. and V. indicate the distribution of births and the corresponding rates throughout the five primary Registration districts into which Scotland is divided. In the Principal Town districts the births number 52,837 and are in the ratio of 3·16 per cent. of the estimated population in the same; the males are 27,074, the females 25,763; in the Large Town districts they are 17,633, giving a birth-rate of 3·22 per cent.; males 8,993, females 8,640; in the Small Town districts, they total to 27,546 or 3·11 per cent. to population, males 14,126, females 13,420; in the Mainland-Rural districts they amount to 25,609, a proportion of 2·76 per cent.; males 13,137, females 12,472; and in the Insular-Rural districts the births registered amount to 2,829, being at the rate of 2·29 per cent. of the estimated population of the same; males 1,485, females 1,344.

Of the total births 9,146 were illegitmate equal to 7·23 per cent. of the whole. This rate varies in the different districts being 6·8 per cent. in the Principal Town districts, 6·0 per cent. in the Large Town districts, 6.9 per cent. in the Small Town districts, 9·6 per cent. in the Mainland-Rural districts; and 6·0 per cent. in the Insular-Rural districts.

Table VI. gives the percentage rate of such births in each division and County of Scotland. The highest rate falls in the North-Eastern District, 12·7 per cent. followed by the Southern, with 12.3 per cent.; the Northern, with 8·5 per cent.; the South-Eastern, with 7·2 per cent.; the East-Midland, with 7·1 per cent.; the North-Western, with 6·6 per cent.; the South-Western, with 5·8 per cent.; the West-Midland, being the lowest 5·6 per cent. In the counties the rate varies from 14·6 per cent., the highest,

TABLE III.—Births, Deaths, and Marriages in each of the Eight Divisions of Scotland during the Year 1895, and their Proportion to the Estimated Population.

DIVISIONS.	Population estimated to middle of 1895.	BIRTHS.		DEATHS.		MARRIAGES.	
		Number.	Per cent. to Pop.	Number.	Per cent. to Pop.	Number.	Per cent. to Pop.

64,815 of the total natal events during the year were of the male sex and 61,639 of the female, so that the ratio of boys born to girls is as 105·2 is to 100, a proportion which varies in each district, the greatest difference for the year being in the Insular-Rural districts, 110·5 to 100, the least in the Large Town districts, 104·1 to 100.

Births were registered throughout the country month by month as follows:—11,128 during January, 9761 during February, 10,892 during March, 11,434 during April, 11,277 during May, 10,644 during June, 11,340 during July, 10,480 during August, 10,020 during September, 10,572 during October, 9512 during November, and 9394 during December.

DEATHS.

81,864 deaths were registered during 1895, throughout Scotland, giving a death rate of 1·97 per cent., or 197 in every ten thousand of the estimated population, male deaths 40,726, female 41,138. The rate varies in each district being highest in the Principal Town districts, where it is 219 per ten thousand of the population, followed by the Large Town districts with a mortality rate of 199, the Small Town districts with one of 186, the Mainland-Rural districts with one of 172, and the Insular-Rural districts with one of 153 per ten thousand of population.

The deaths were registered during each month as follows, 7758 during January, 8924 during February, 9437 during March, 7619 during April, 6613 during May, 5759 during June, 6215 during July, 5671 during August, 5612 during September, 6079 during October, 5937 during November, and 6240 during December.

MARRIAGES.

28,380 marriages were registered in Scotland during the year, being in the proportion of 68 in every ten thousand of the population as estimated.

As with the other events the proportion of marriages varies in each of the five districts, being 84 per ten thousand in the Principal Town districts, 66 in the Large Town districts, 62 in the Small Town districts, 52 in the Mainland-Rural districts, and 39 in the Insular-Rural districts.

The number of marriages reported to the registrars each month is, 3174 during January, 1394 during February, 1505 during March, 2284 during April, 886 during May, 4243 during June, 3450 during July, 1725 during August, 2016 during September, 1899 during October, 2079 during November, and 3725 during December.

EIGHT OF THE PRINCIPAL TOWNS OF SCOTLAND.

The remarks in the following sections of the report refer to the various Registration events which occurred during the year in eight of the Principal Towns, viz., Glasgow, Edinburgh, Dundee, Aberdeen, Leith, Paisley, Greenock, and Perth, the information upon which they are founded being derived from the weekly returns of the Registrars of the same, and it is believed that facts relating to them apply also to a considerable extent to the surrounding districts.

BIRTHS IN THESE EIGHT TOWNS.

The births registered in these towns during the year number 46,742, which is in the proportion of 312 in every ten thousand of the population as estimated. The highest rate is attained in Greenock, where it is 339 per ten thousand; followed by Aberdeen, with 328, Glasgow 327, Paisley 323, Leith 320, Dundee 286, Perth 272, and Edinburgh 271.

Of the total births 43,421 were legitimate, and 3.321 illegitimate, a percentage of the latter to the total births of 7·1. These births are most in evidence in Aberdeen, where 9·1 per cent. were of this nature, followed by Dundee, with 8·7 per cent.; Edinburgh, with 8·4 per cent.; Perth with 7·0 per cent.; Glasgow, with 6·7 per cent.; Paisley, with 5·1 per cent.; Leith, and Greenock each showing a rate of 4·6 per cent. Table VIII. also indicates the percentage of illegitimate births registered in these towns during the year, to the possible mothers, *i.e.*, widows and spinsters, Aberdeen coming first with 1·89 per cent.; followed by Glasgow, with 1·60 per cent.; Dundee, with 1·47 per cent.; Greenock, with 1·30 per cent.; Leith with 1·29 per cent.; Edinburgh, with 1·28 per cent.; Perth, with 1·21 per cent.; and Paisley with 1·05 per cent.

Of the 46,742 births in these towns 23,891 are of the male and 22,851 of the female sex, so that for every 100 of the latter there were born 104·5 of the former.

DEATHS IN THESE TOWNS.

33,329 deaths were registered in these towns during the year, affording a death rate of 222 in every ten thousand of the population of the same.

The mortality rate is highest in Glasgow when 235 in every ten thousand of its inhabitants died during 1895, followed by Greenock with a rate of 230, Paisley with one of 216, Dundee with one of 212, Aberdeen with one of 211, Edinburgh and Perth each with the same, 208, while Leith shows the lowest, 204 deaths per ten thousand. Table IX., allows of a comparison being made as to the mortality rate between the present year and that for each of the ten years 1885–1894. The death rate for the present year, and that in each town compares unfavourably with that of 1894, and when the mean of the above ten years is considered, it is seen that in each town excepting Dundee and Paisley the rate for 1895 has increased.

Table X. is prepared to afford information regarding the mortality among children under 5 years of age in these towns. The number of

children under 5 years as estimated to be alive is 182,889, the deaths within the same age number 12,810, which gives a mortality rate of 70 per 1000. The corresponding rate in Greenock, is 74; in Glasgow and Leith, it is 73; in Aberdeen, it is 71; in Dundee, it is 68; in Edinburgh, it is 65; in Paisley, it is 60; and in Perth, it is 48. The last column of the Table shows how in every 100 deaths in Leith, 46 were of children of the above tender years, in Aberdeen and in Greenock, they were 41; in Glasgow 40, in Dundee 38, in Paisley 36, in Edinburgh 34, and in Perth 25.

Tables XI. and XII. give the mortality rate from a series of diseases, and classes of disease as they occurred in each of the above towns, the former Table being computed with reference to the estimated population, the latter to the total deaths from all causes. The rate in the first Table and for the Towns collectively is 2·235 per cent. of their inhabitants as estimated, the highest rate occurring in Glasgow, 2·369 per cent.; followed by Greenock, with one of 2·318 per cent.; Paisley, 2·163 per cent.; Aberdeen, 2·117 per cent.; Perth, 2·107 per cent.; Edinburgh, 2·080 per cent.; Leith, 2·041 per cent.; Dundee standing lowest with a rate of 2·029 per cent. The death rate from Zymotics alone is in the Towns together 0·328 per cent. of this population, and forms 14·71 per cent. of the total deaths in the same. The inhabitants in Greenock suffered from these diseases at the rate of 0·419 per cent.; in Leith, at 0·413 per cent.; in Aberdeen, at 0·388 per cent.; in Edinburgh, at 0·333 per cent.; in Glasgow, at 0·321 per cent.; in Paisley, at 0·288 per cent.; in Dundee, at 0·253 per cent.; and in Perth, at 0·214 per cent. When estimated with respect to

TABLE X.—Deaths of Children under Five Years of age in each of Eight of the Principal Towns of Scotland during the Year 1895.

Towns.	Estimated Number of Living Children under 5 years in 1895.	Deaths under 5 years of age.	Percentage of Deaths under 5 years.	Percentage of Deaths under 5 years to the Total Deaths.
Glasgow	88,250	6,458	7·32	39·5
Edinburgh	29,449	1,923	6·52	33·9
Dundee	18,746	1,280	6·83	37·6
Aberdeen	16,433	1,165	7·09	41·3
Leith	9,474	688	7·26	46·3
Paisley	9,333	555	5·95	35·9
Greenock	7,846	581	7·41	40·6
Perth	3,358	160	4·76	25·4

the total mortality the percentage of deaths from Zymotics, was at the rate of 20·30 in Leith; of 18·40 in Aberdeen; of 18·20 in Greenock; of 16·05 in Edinburgh; of 13·69 in Glasgow; of 13·32 in Paisley; of 11·90 in Dundee; and of 10·27 in Perth.

In Glasgow, in every 100 deaths, 3·86 were due to Hooping-Cough; 2·82 to Diarrhœa and Dysentery; 2·04 to Measles; 1·11 to Scarlet Fever; 0·87 to Influenza; 0·80 to Fevers (0·75 being Enteric and 0·05 Typhus); 0·69 to Diphtheria; and 0·14 to Small Pox.

In Edinburgh, 4·51 in every 100 deaths was due to Measles; 2·71 to Influenza; 2·49 to Diarrhœa and Dysentery; 1·23 to Scarlet Fever; 1·15 to Diphtheria; 1·04 to Hooping-Cough; 1·01 to Fevers (0·97 of these Typhoid); and 0·28 to Small Pox.

In Dundee, Diarrhœa and Dysentery caused 4·12 deaths in every 100; Hooping-Cough caused 2·71; Measles, 0·97; Influenza, 0·88; Diphtheria, 0·74; Fevers, 0·59 (all Typhoid or Enteric); and Scarlet Fever, 0·32.

In Aberdeen, in every 100 deaths, 6·46 were due to Measles; 3·39 to Hooping-Cough; 2·96 to Influenza; 2·50 to Diarrhœa and Dysentery; 1·03 to Scarlet Fever; 0·64 to Fevers (all Enteric); and 0·43 to Diphtheria.

In Leith, 7·01 per 100 of the deaths are due to Measles; 3·57 to Hooping-Cough; 2·16 to Diarrhœa and Dysentery; 1·55 to Scarlet Fever and Influenza; 1·42 to Diphtheria; 0·94 to Fevers (0·67 Typhoid and 0·27 Typhus); and 0·07 to Small Pox.

TABLE XI.—Percentage of Deaths from different Diseases to the Population in each of Eight of the Principal Towns of Scotland during the Year 1895, allowing for the Causes not specified.

In Paisley, Measles caused 4·07 per 100 deaths, Diarrhœa and Dysentery, 3·81; Influenza, 1·49; Fevers, 1·16 (1·03 Typhoid); Scarlet Fever, 0·84; and Hooping-Cough and Diphtheria each, 0·39.

In Greenock, 4·71 per 100 of the deaths is due to Diarrhœal Affections; 4·57 to Measles; 3·72 to Hooping-Cough; 1·41 to Influenza; 0·70 to Scarlet Fever; and Fevers (0·63 of the latter Enteric); and 0·42 to Diphtheria.

In Perth, Diarrhœa and Dysentery caused 2·89 deaths in every 100; Measles, 1·93; Diphtheria, 1·44; Fevers 1·28 (0·64 of Typhus, and the same of Typhoid); Influenza, 0·96; Scarlet Fever and Hooping-Cough, each 0·16.

In the towns collectively, 1044 deaths were ascribed to Measles, equivalent to 3·15 per cent. of the total mortality, in the same, and in the ratio of 7·0 per ten thousand of the inhabitants; 330 of these occurred in Glasgow; 256 in Edinburgh; 181 in Aberdeen; and 104 in Leith. Scarlet Fever caused 337 deaths, 1·02 per cent. of all, and 2·3 in every ten thousand of population; 180 of them are in Glasgow; 70 in Edinburgh; 29 in Aberdeen; and 23 in Leith. Hooping-Cough caused 984 deaths, or 2·97 per cent. of the total, and 6·6 in every ten thousand of the population; 625 of these occurred in Glasgow, which suffered much more severely from this disease than any other of the towns. Influenza caused 479 deaths, in the proportion of 1·45 per cent. of the whole, and 3·2 per ten thousand of the population; 154 of these occurred in Edinburgh; 140 in Glasgow; and

---

TABLE XII.—Percentage of Deaths from different Diseases to the Total Deaths in each of Eight of the Principal Towns of Scotland during the Year 1895, allowing for the Causes of Death not specified.

DISEASES CAUSING DEATH.	Total Eight Towns.	Glasgow.	Edinburgh.	Dundee.	Aberdeen.	Leith.	Paisley.	Greenock.	Perth.

83 in Aberdeen. Diphtheria caused 256 deaths, equal to 0·77 per cent. of the whole mortality, and 1·7 in each ten thousand of the inhabitants. To Fevers 275 deaths are ascribed, at the rate of 0·83 per cent. of all, and 1·8 in every ten thousand of population; Typhoid or Enteric caused 253 of these, Typhus 18, and Simple or Ill-Defined 4. The largest number of deaths from Typhus occur in Glasgow, Leith, and Perth; and from Typhoid in Glasgow, Edinburgh, Dundee, Aberdeen, and Paisley. Diarrhœa and Dysentery cause 984 deaths, being 2·97 per cent. of all, and 6·6 per ten thousand of population; 457 of these occur in Glasgow; 141 in Edinburgh; and 140 in Dundee Small Pox caused 40 deaths in the Eight Towns, 23 of these being in Glasgow; 16 in Edinburgh; and 1 in Leith. 9 of them were stated to have been vaccinated, 11 unvaccinated, while no statement is made regarding 20.

Zymotics together caused 4875 deaths, in the proportion of 14·71 per cent. of the total mortality, or 32·8 in every ten thousand of the population. Syphilis caused 130 deaths; Erysipelas 99; and Puerperal Fever 92.

Diseases of a Constitutional character caused 5965 deaths, equivalent to 18·01 per cent. of the total deaths, or 40·0 in every ten thousand of the population. Rheumatism and Rheumatic Fever caused 103 deaths; Cancer caused 1094, at the rate of 3·30 per cent. of all deaths, or 7·3 in every ten thousand of population, and most marked in Edinburgh, Aberdeen, and Dundee. Gout caused 5 deaths. To Phthisis 3207 deaths are ascribed, equal to 9·68 per cent. of all, or 21·5 per ten thousand of population: most to be noted in Dundee, Glasgow, Paisley, and Edinburgh. Tabes Mesenterica caused 441 deaths, Tubercular Meningitis 551, and other Tubercular Diseases 336.

Diseases of the Nervous system caused 3592 deaths, *i.e.* at the rate of 10·84 per cent. of all deaths, or 24·1 in every ten thousand of population. The latter rate occurs in each town as follows:—24·7 in Glasgow; 22·0 in Edinburgh; 24·3 in Dundee; 22·4 in Aberdeen; 18·7 in Leith; 30·3 in Paisley; 26·7 in Greenock; and 27·4 in Perth. Inflammation of the Brain caused 720 deaths; Apoplexy 1079; and Convulsions 617.

Diseases of the Circulatory Organs caused 2707 deaths, equal to 8·17 per cent. of the total, and 18·2 in every ten thousand of population; the latter rate occurs in the towns individually as follows:—16·0 in Glasgow; 21·3 in Edinburgh; 20·5 in Dundee; 18·2 in Aberdeen; 17·0 in Leith; 17·7 in Paisley; 20·7 in Greenock; and 26·0 in Perth.

Diseases of the Respiratory System caused 7730 deaths, equal to 23·34 per cent. of all, and 51·6 per ten thousand of the population. The rate to population is 62·8 in Glasgow; 44·4 in Edinburgh; 46·7 in Dundee; 36·8 in Aberdeen; 41·0 in Leith; 44·4 in Paisley; 48·4 in Greenock; and 38·7 in Perth. Croup caused 160 deaths; Bronchitis 3913; and Pneumonia 2846.

From diseases of the Organs of Digestion 2189 deaths occur, equivalent to 6·61 per cent. of all, and 14·7 in each ten thousand of population. Enteritis caused 614 deaths; Peritonitis 287; Dentition 247; and Diseases of the Liver 272.

Diseases of the Urinary Organs caused 788 deaths, 2·38 per cent. of all, or 5·3 per ten thousand of population. Nephritis accounts for 194; Bright's Disease for 321; and Diseases of the Bladder and Prostate for 112.

Premature Births account for 888 decedents; Congenital Malformations for 180; while 1201 are credited to Old Age.

From Atrophy and Debility 1080 deaths are registered; from Dropsy

34; while in 187 cases the cause of death was not sufficiently defined or specified to be specially classified.

1139 deaths were due to direct Violence, forming 3·44 per cent. of all and 7·6 per ten thousand of population. Of these, 1068 were due to Accident or Negligence and 71 to Homicide or Suicide, 13 being of the former and 58 of the latter. The methods by which Suicide was attained are:—4 by Gun Shot; 12 by Cut Throat; 2 by Drowning; 31 by Hanging; 5 by Precipitation; 2 by Poison; and in other 2 cases the plan followed was not stated.

To Intemperance directly 91 deaths are due.

Of Old people, 114 died in the towns at ages of 90 and upwards—31 being men and 83 women. The oldest were 4 females, one *æt.* 98, two *æt.* 99, and one *æt.* 104.

MARRIAGES IN EIGHT TOWNS.

12,881 marriages were registered in the same eight towns during the year, being in the proportion of 86 in every ten thousand of the population. The rate was 89 in like ratio in Glasgow; 87 in Edinburgh; 76 in Dundee; 90 in Aberdeen; 81 in Leith; 78 in Paisley; 80 in Greenock; and 88 in Perth.

WEATHER AND ITS INFLUENCE ON MORTALITY.

The following remarks on the weather of the year are extracted from the Notes made by Dr Buchan, under the direction of the Council of the Scottish Meteorological Society, which appear in the Registrar-General's Quarterly Reports:—

The outstanding features of the weather of January were a greater prevalence of northerly and easterly winds, an extraordinarily low mean temperature, and a heavy snowfall, with much drifting in many parts of the country.

The weather of February was a continuation, in an intensified form, of the severe weather of the previous month. The unprecedented prevalence of northerly and easterly winds equally marked both months; barometric pressure unusually high, with a range unusually small; a mean temperature even two degrees lower than that of January, and with a mean range only once exceeded during the past forty years, and a humidity absolutely lower than that recorded for any winter month during this long course of years.

The weather of March was characterised by unusually low barometric pressure, the deficiency from the average being nearly the same at all the large towns; a mean temperature nearly a degree above the average; a rainfall a little above the average; but the number of rainy days showing an excess of six; and wind, both as regards force and direction, nearly the average.

April was characterised by a mean barometer a little under the average, with a range considerably above it; a mean temperature a degree and a half above the average, with its average daily range; a humidity under the average; and a rainfall 21 per cent. less than the average, falling, however, on two days in excess of the average.

May was characterised by a high barometer, with a range much below

the average: a high temperature, with an extraordinary high mean daily range; a humidity under the average; a rainfall 66 per cent. under the average, and falling four days fewer than the average.

June was characterised by a high barometer, with a range greater than

TABLE XIII.—Monthly Mortality and Mean Temperature in Scotland during 1895, compared with the Mean of the Ten Years 1881–1890.

the mean; a temperature about a degree above the average, and a mean daily range unusually large; a very low humidity; and a rainfall 13 per cent. under the mean falling on the average number of days.

July was characterised by a pressure, and range of pressure, both considerably under the average; a temperature a degree under the average, with a mean daily range only a little under the average; a humidity under the average; and a rainfall 40 per cent. above the average, with three days of rain more than usual in July.

August was characterised by a barometric pressure and range considerably under the average; a mean temperature rather high, with a mean daily range unusually small; a marked prevalence of southerly winds; and a heavy rainfall, which fell on a larger number of days than on any previously recorded August.

September was characterised by a rather high barometric pressure and rather low range; a very high mean temperature, having during the last forty years been exceeded only by September 1865, whose mean temperature was 58°·5; a very high mean daily range; an excess of southerly winds and calms; an unusually small rainfall, which fell on five days fewer than the average.

October was characterised by a barometric pressure a little under the average, with a monthly range slightly above it; a very low mean temperature, with a mean daily range about a degree above the average; an ususual predominance of northerly winds; and a rainfall, as regards the amounts, most unequally distributed among the eight towns.

November was characterised by a barometric pressure a little under the average, but a monthly range considerably above it; a mean temperature above the average, with the nights relatively colder than the days; a large predominance of E. and S.E. winds; and a rainfall nearly an inch

above the average, falling, however, on five days more than the mean of the month.

December was characterised by an unusually low barometric pressure, with the mean range of the month, a mean temperature, daily range of temperature, and humidity slightly under the average; an excess of seven days prevalence of east and south-east winds, and a rainfall 9 per cent. above the average, falling on two days above the average.

Table XIII. and XIV. are drawn up to afford some information regarding the meteorological conditions of the year and the effects thereof upon the mortality among the inhabitants as it occurred during each month of 1895, and, for comparison, corresponding information as to the mean of ten years (1881–1890) is given alongside. The first three months and the last one show the lowest mean temperature, that of January and February being exceptionally so. The mean temperature for the whole year is slightly below that of the longer period; at the same time, but for the severe cold of the months first noted, it would have been above it. The actual proportionate mortality is highest during the first four months, *i.e.* the coldest and these immediately following; the lowest during the warmer months of summer and autumn.

Table XV. shows the connection between certain atmospheric phenomena and the deaths from certain diseases and classes of disease in the afore-mentioned eight towns.

There are 40 deaths from Small Pox during the year, 8 of them registered during January, 6 during February, 8 during March, 12 during April, 3 during May, and 1 during each of the months June, July, and November. By far the heaviest mortality from Measles and its sequela took place during the first five months of the year—the cold winter and spring months; the least during the months of September, October, and November. Scarlet

Fever caused its heaviest mortality during the first months and the last three; Hooping-Cough doing the same during the early and late months of the year,—those inclement months in which, as may be readily understood, the pulmonary changes which so often bring about a fatal result to this disease are so prevalent. Deaths from Diphtheria are fairly steady in their occurrence month by month, what minimum it shows appearing during the warm summer months. Diarrhœal affections caused their greatest number of deaths during the summer and autumn months, as also is the case with Typhoid Fever.

Phthisis claims a large number of lives each month of the year, most numerous during March, April, and May, the months following the very cold January and February, during which two there were also registered a large number from the same.

The more acute affections of the Respiratory Organs, as Bronchitis and Pneumonia, caused, as might be anticipated, their greatest mortality during the months of January, February, and March, the two former of which, as

December	981	203	776	569	2,529	890
YEAR	13,088	2,688	10,610	7,705	34,091	12,000

has been already stated, were of a more than usual wintry character; the lowest mortality from these occurred during the warm months of July, August, and September. Very much the same is seen to have occurred in the case of diseases affecting the Organs of Circulation—as heart and blood vessels—as also with those of the nervous system.

Tables XVII. and XVIII. indicate the number of deaths registered each month at a series of ages. Thus among children under 5 years of age, the mortality was most marked during January, February, April, July, and October.

Among Adolescents (those between 5–20 years), the earlier half of the year shows a larger monthly death roll than the later half, September and November being the months during which fewest were registered.

In the case of Adults (between 20–60 years), the three early months proved to be the most fatal period, while during August, September, and October the reverse held.

The Aged, or those over 60 years, succumbed in greatest number during the early and late months, the opposite holding good during those of summer and autumn.

The actual mortality among the inhabitants of those eight towns was greatest during March, followed by February, January, April, May, December, July, October, November, June, September, and August.

REPORT

ON THE

VACCINATION OF CHILDREN

BORN IN SCOTLAND DURING 1894.

The Vaccination Returns for the year 1894 show that, of the 124,461 children whose births were recorded in Scotland, 106,840, or 85·842 per cent., were successfully vaccinated. In 2558 cases postponement certificates were granted, being at the rate of 2·055 per cent.; 505, or 0·406 per cent. were described as insusceptible of vaccination in consequence of some constitutional peculiarity; one child was insusceptible from having had

Small Pox; and 244, or 0·196 per cent., were insusceptible from having been vaccinated, but by persons who were not qualified to grant certificates to that effect. 11,645 children, or 9·356 per cent. of the whole children born, died before vaccination, and 2668, or 2·144 per cent., were removed from the district in which they were born, or were otherwise unaccounted for. It therefore appears that the proportion of children successfully vaccinated is slightly under the average of the previous ten years, but is higher than any year since 1888; that the proportion of postponed cases is above the average; the number constitutionally insusceptible is considerably above the average, especially during the last two years; and the number insusceptible from previous vaccination is under the average. The number removed from the district or otherwise unaccounted for is the lowest for any year during the last ten.

In Table XX. is shown the proportions to the total living children, those who died before vaccination being omitted, and from this it will be gathered that, of the 112,816 children alive at the age of six months, 106,840, or 94·703 per cent., were successfully vaccinated; in 2558 cases, or 2·267 per cent., vaccination was postponed; in 505 cases, or in 0·448 per cent., the children were certified to be constitutionally insusceptible; in 244 cases, or in 0·216 per cent., the children were insusceptible from previous successful vaccination; and in one case the child was insusceptible in consequence of having already had Small Pox. In 2668 cases, or in 2·365 per cent., the children were removed from the district in which they were born, or were otherwise unaccounted for.

TABLE XX.—Vaccinations in Scotland, 1884–1894, deducting from the Births those who died before they could be Vaccinated, and giving the Proportion of the Vaccinated to the surviving Births of each year.

Years.		Successfully Vaccinated.	Vaccination Postponed.	Insusceptible of Vaccination.			Removed from District before Vaccination, or otherwise unaccounted for.	TOTAL LIVING.
				From Constitutional Insusceptibility.	From having had Small Pox.	From Previous Vaccination.

During the year 1895, 40 deaths resulted from Small Pox in Eight of the Principal Towns, particulars of the deaths in which are given in the Monthly Reports. Of these, 23 occurred in Glasgow, 16 in Edinburgh, and one in Leith. The number of deaths from Small Pox for three periods of ten years, viz., from 1865–74, 1875–84, and 1885–94, and also for the ten years before the Vaccination Act came into operation, viz., 1855–64, are given in Table XXII.

XI.—ABSTRACT of the METEOROLOGY in Eight of the Principal Towns of Scotland during the several Months of the Year 1895.

Mean Height above Sea-level, 136 feet. Mean Latitude, 56° 12′. Mean West Longitude, 3° 30′.

1895.	BAROMETER.		SELF-REGISTERING THERMOMETER.						HYGROMETER.		DEDUCTIONS from Glaisher's Tables, 2nd Edit.				RAIN.		WINDS.									
	Mean at 32° and Sea-level.	Monthly Range.	Highest in Month.	Lowest in Month.	Mean Temperature.	Monthly Range.	Mean Daily Range.	Greatest Daily Range.	Dry Bulb, or Mean Temp. of Air.	Wet Bulb, or Temp. of Evaporation.	Dew-point Temperature.	Elastic Force of Vapour.	Wt. of Vapour in Cubic Foot of Air.	Humidity. Sat. 100.	Number of Days it fell.	Amount.	Number of Days it blew in certain Directions.								Calm or Variable.	Mean Pressure on square foot.

N.B.—Districts containing Parliamentary and Royal Burghs are printed in capitals, thus—EDINBURGH. Districts containing Towns of 2000 Inhabitants and upwards are printed in small capitals thus—CARLUKE.
An asterisk "*" is prefixed to those Districts which have different names from the Parishes in which they are situated, or are comprised of more, or parts of more than one Parish, and the component parts of these Districts will be found on page 56.
A dagger "†" is prefixed to those Districts which consist of only a part of the Civil Parish of the same name.

APPENDIX.

VACCINATIONS, 1894.

EXTRACTS FROM THE REGISTRAR'S NOTES RELATIVE TO THE WORKING OF THE VACCINATION ACT.

II. NORTH-WESTERN DIVISION.

5. Ross and Cromarty.

Mainland.

75. (1) Lochbroom. — The prevalence of Hooping Cough is the explanation of the number unaccounted for.

Insular.

86*b*. Carloway.—The children whose vaccination is postponed, are unfit in consequence of sickness and weak constitutions.

6. Inverness.

Mainland.

92b. Cannich.—The Medical Practitioner who successfully vaccinated the child whose case is entered in Col. 5, died shortly thereafter, and the usual certificate was not received.

95. Daviot and Dunlichty. — Considering extent of district, and that no Medical Practitioner resides within it, vaccination is well attended to.

Insular.

111. (1) North Harris.—The occurrence of cases of Typhoid Fever accounts for vaccination not being carried out more satisfactorily.

111. (2) South Harris.—Vaccination is far behind, but the vaccinator, who has just been appointed, will take steps for getting up the arrear.

113. North Uist.—Hooping Cough has been in the parish for the last eighteen months and hinders vaccination work.

114. (1) Portree.—An outbreak of Hooping Cough is the cause of so many postponement certificates.

117. (2) South Snizort. — Owing to the energy of the Medical Officer, vaccination is well attended to. The five postponed cases are owing to the prevalence of Hooping Cough and Measles.

III. NORTH-EASTERN DIVISION.

10. Aberdeen.

168. (2) Aberdeen (Aberdeen).—Of the 25 entered in Col. 7, 11 are of children whose parents have left the district, 11 are of children whose vaccination has been postponed, and the period of postponement expired, and 3 are of children whose parents are supposed to refuse to vaccinate.

IV. EAST-MIDLAND DIVISION.

13. Perth.

330. Auchtergaven. — Vaccination is not wilfully evaded, but frequently delayed from carelessness.

394b. Strathfillan.—The father of the child removed from the district before vaccination was employed in the construction of the West Highland Railway.

V. WEST-MIDLAND DIVISION.

19. Argyll.

Mainland.

533. (1) South Knapdale.—Of the 2 entered in Col. 7, one is the child of a travelling tinker, and the other of a farm labourer who left the district.

Insular.

544. Kilninian and Kilmore. — The child referred to in Col. 2 is reported to have been vaccinated, although the certificate has not yet been received.

551. (2) COLL.—The 3 referred to in Col. 2 have been unsuccessfully vaccinated once, but are considered susceptible, and will be revaccinated as soon as possible.

VI. SOUTH-WESTERN DIVISION.

22. AYR.

597. KILMARNOCK. — There is a growing tendency on the part of the public to decline vaccination. A prosecution was instituted in one case, but in the last case of refusal the Board refused to prosecute, the reason assigned being the cost.

23. LANARK.

647. HAMILTON.—One parent prosecuted and fined, but still refuses to vaccinate his child, and the Parish Council declines to prosecute a second time. With a view to looking after defaulters more efficiently, it has been arranged to send in quarterly, instead of half-yearly returns.

VII. SOUTH-EASTERN DIVISION.

25. EDINBURGH.

698. RATHO. — The cases entered in Col. 7 have been several times reported to the Inspector of Poor, but no notice seems to be taken.

CONSTITUTION OF THE DISTRICTS DISTINGUISHED IN THE PRECEDING TABLES BY AN ASTERISK (*).

No.	Districts.	Component Parts (Parishes).
14	Deerness	Part of St Andrews.
15	Eday and Pharay	Part of Stronsay and Eday.
22	North Ronaldshay.. ..	Part of Cross and Burness.
26	Sanday	Lady, and part of Cross and Burness.
37*b*	Keiss..	Parts of Cannisbay and Wick.
58	Applecross	(1) Part of Applecross; (2) Remainder of Applecross and part of Gairloch.
59*b*	Carnoch	Parts of Contin and Urray.
86*b*	Carloway	Parts of Barvas and Uig.
87	Lochs	Lochs and part of Uig.
92*b*	Cannich	Parts of Kilmorack, and Kiltarlity & Convinth.
112	Kilmuir	(1) Part of Kilmuir; (2) Remainder of Kilmuir, and part of Snizort.
135	Elgin..	Elgin, and parts of New Spynie, and St Andrews-Lhanbryde.
152	Enzie..	Parts of Bellie and Rathven.
155*b*	Glenrinnes	Parts of Aberlour and Mortlach.
167	Seafield	Parts of Cullen and Rathven.
171*b*	Ardallie	Parts of Cruden, Ellon, Longside, and Old Deer.
210*b*	Kinninmonth	Parts of Crimond, Longside, Lonmay, Old Deer, and Strichen.
217	Logie Coldstone and Cromar	Logie Coldstone and part of Glenmuick, Tullich, and Glengairn.
222*b*	Millbrex	Parts of Fyvie and Monquhitter.
227*b*	New Pitsligo	Parts of Aberdour, New Deer, Strichen, and Tyrie.
237*b*	Savoch	Parts of Ellon, New Deer, Old Deer, and Tarves.
249*b*	Ythan Wells	Parts of Auchterless and Forgue.
272	Arbroath	Arbroath, and part of St Vigeans.
282	Dundee	Dundee, and part of Liff, Benvie, and Invergowrie.
294*b*	Kilry..	Parts of Glenisla and Lintrathen.
324	Aberfeldy	Parts of Dull, Kenmore, and Logierait.
328*b*	Ardoch	Parts of Blackford, Dunblane, and Muthill.
330	Auchtergaven	Parts of Auchtergaven and Monzie.
331	Balquhidder	Balquhidder, and part of Comrie.
344	Dowally	Part of Dunkeld & Dowally.
349	Dunkeld	Part of Dunkeld & Dowally.
355*b*	Foss	Parts of Blair-Athol and Dull.
361	Killin	Parts of Kenmore and Killin.
375	Logiealmond	Parts of Little Dunkeld, Methven, and Monzie.
379	Meigle	Meigle, and part of Coupar-Angus.
386*b*	Persie	Parts of Alyth, Blairgowrie, and Kirkmichael.
387	Perth..	Perth, and parts of Kinnoull and Scone.
393*b*	Stanley	Parts of Auchtergaven, Kinclaven, and Redgorton.
394*b*	Strathfillan	Part of Killin.
394*c*	Tenandry	Parts of Blair-Athol and Moulin.
402	Anstruther-Easter.. ..	Anstruther-Easter, and part of Kilrenny.
417	Crail	Part of Crail and May Island.
423	Dunbog	Dunbog, and part of Flisk.
425	Dunino	Dunino, and part of Crail.
442	Kirkcaldy and Abbotshall	Kirkcaldy, Abbotshall, and part of Kinghorn,
481*b*	Grangemouth	Parts of Bothkennar, Falkirk, and Polmont.
490	Stirling	Stirling, and part of St Ninians.
496	Dumbarton	Dumbarton, and part of Cardross.
506	Ballachulish, etc.	Part of Kilmallie.
509	Cumlodden and Minard ..	Parts of Glassary and Glenaray.
513	Inveraray	Inveraray, and part of Glenaray.
515	Kilbrandon and Kilchattan	Kilbrandon and Kilchattan, and part of Jura.
517	Kilchrenan, etc.	(1) Parts of Kilchrenan and Dalavich, and Glenorchy and Inishail; (2) Remainder of Kilchrenan and Dalavich.
525	Lismore	Lismore and Appin, and part of Kilmallie.
526	Lochgilphead	Parts of Glassary and South Knapdale.
529	Muckairn	Parts of Ardchattan and Muckairn, and Glenorchy and Inishail.
535	Tarbert	Parts of Kilcalmonell, Saddell and Skipness, and South Knapdale.
536	Bowmore (or Kilarrow) ..	Part of Kilarrow, and Kilmeny.
543	Kilmeny	Part of Kilarrow and Kilmeny.
545	Kinlochspelvie	Part of Pennygown and Torosay.
547	Portnahaven	Part of Kilchoman.
548	Salen..	Parts of Kilninian and Kilmore, and Pennygown and Torosay.
549	Tobermory	Part of Kilninian and Kilmore.
550	Torosay	Part of Pennygown and Torosay.
556	Lochranza	Parts of Kilbride and Kilmory.
557	North Bute	North Bute, and part of Rothesay.
572	Neilston	(1) Part of Neilston; (2) Remainder of Neilston, and part of Abbey.
573	Paisley	Paisley, and parts of Abbey and Renfrew.
574	Port-Glasgow	Port-Glasgow, and part of Greenock.
576	Ardrossan	(1) Parts of Ardrossan and West Kilbride; (2) Remainder of Ardrossan.
578	Ayr	Ayr, Newton-upon-Ayr, and part of St Quivox.
584*b*	Crosshill	Parts of Kirkmichael, Kirkoswald, and Maybole.
595	Irvine	Irvine, and part of Dundonald.
610*b*	Patna	Parts of Dalmellington, Dalrymple, Kirkmichael, and Straiton.
626*b*	Calderhead	Parts of Cambusnethan and Shotts.
639	Dalziel	Dalziel, and part of Hamilton.
644	Glasgow	City of Glasgow, Gorbals, and parts of Barony, and Govan
652	Old Monkland	Old Monkland, and part of New Monkland.
670	Queensferry	Queensferry, and part of Dalmeny.
684	Duddingston	Parts of Duddingston and South Leith.

CONSTITUTION OF THE DISTRICTS—*continued.*

No.	Districts.	Component Parts (Parishes).
685	Edinburgh	City of Edinburgh, Canongate, and parts of St Cuthberts, Duddingston, Liberton, North Leith, and South Leith.
692	Leith..	(1) Parts of Cramond, North Leith, and St Cuthberts; (2) Parts of North Leith, St Cuthberts, and South Leith.

Criech (Sutherland), . 46
Crieff, . 342

* The actual number of Districts is 1056—many Parishes and Burghs having been divided into two or more Districts for the purpose of Registration. Thus Edinburgh and Glasgow, to each of which only a single number is assigned in the Tables, consist of 5 and 14 Districts respectively. In forming the alphabetical arrangement the principle adopted has been to place *compound* names in the order in which they are pronounced.
